DD/M&S 73-4495: Memo dtd 19 Nov 73 to DD/M&S fr D/CO, subj: Agency Assistance to U.S., Federal, State and Local Government Components

CONFIDENTIALOC-M-73-625
13 NOV 1973

MEMORANDUM FOR: Deputy Director for Management and Services

SUBJECT : Agency Assistance to U.S., Federal, State
and Local Government Components

REFERENCE : dated 30 August 1973

Forwarded herewith, in accordance with the referent instructions are two reports of assistance requested by other Federal Government components. The AEC request is an extension of service which has been provided in the past. The Army request is without precedent but will enhance our working relationship with Vint Hill Farms Station.

Director of Communications

CONFIDENTIAL

1. DIRECTORATE: DD/M&S
2. COMPONENT: Office of Communications
3. SUMMARY DESCRIPTION OF AGREEMENT, ARRANGEMENT AND/OR PRACTICE OF PROVIDING SUPPORT OR ASSISTANCE:

CIA has provided subscriber line secure telephone service for the Atomic Energy Commission for several years. Initially, two subscriber lines were connected between AEC and the CIA secure switch at Langley. One of these lines was recently cancelled, and AEC is now requesting that the second line be reinstated.

4. DESCRIPTION OF ACTIVITY, INCLUDING RELEVANT DATES:

Connection of one additional KY-3 subscriber telephone line from AEC to the CIA secure switch, with access from there to the U.S. Government secure voice system. Connection date is dependent upon availability of lines from the telephone company; estimated about 15 December 1973. Service will continue until terminated at the request of AEC. Cryptographic material for the circuit will be issued by CIA as required.

5. LOCATION OF ASSISTANCE:

Connection to the switch will be made at CIA Headquarters. The remainder of the circuit will be provided by the telephone company.

6. ORGANIZATION(S) INVOLVED:

Atomic Energy Commission, only.

7. BASIS OR REASON FOR ACTIVITY:

U.S. Government departments and agencies having secure voice switching capability have traditionally provided subscriber line service to those agencies whose secure voice requirements are not sufficiently large to justify their own switching systems. Similar service is provided

by State and DOD to other agencies, including some CIA remote locations. The CIA switch is the nearest to the AEC location and is therefore used by AEC in preference to the State or DOD switches to reduce leased line costs.

8. FINANCIAL COSTS: Borne by AEC.
9. MANPOWER: None.
10. AGENCY EMPLOYEE (AND TELEPHONE NUMBER) TO CONSULT FOR ADDITIONAL INFORMATION:
